

Design and Development of Automatic Jute Bag Making Machine

Name of the project leader: Dr. N.P.Mukherjee.

Total project cost: Rs 20 lakhs.

The main objective of this machine is to facilitate manufacturing of jute bags from continuous supply of material, essentially knitted from jute by controlled process of automatic cutting to required size, both edge folding & stitching by chain stitches to form hemmed mouth, mid folding and parallel sides over-lock stitching that form sides, lastly name labeling in single set up.
